1.Introduction

Gujarat Livelihood Promotion Company (GLPC) is the executive arm of Mission Mangalam, the implementation agency for NRLM. GLPC works through strategic partnership between large industries and SakhiMandals / Self Help Groups / Producer Groups / Service Groups / Collectives of the poor, through decentralized Micro Enterprise Ventures. The promoting companies / entrepreneurs redesign the process where intensive tasks as job-works are undertaken by Self Help Groups in their respective homes or villages as self-employment activities. Main objectives of GLPC are

- Empowering the Poor by organizing them into SHGs/Federations/other Collectives.
- Empower the poor through ensuring access to Financial Services.
- Augmenting existing livelihoods and enhancing incomes
- Explore livelihood opportunities through newer ventures in rural service sector
- Developing Inclusive Value Chains

GLPC has been creating and promoting livelihood avenues for the rural population whilst boosting up their capacities in their livelihood areas. To achieve these objectives, GLPC has formed more than 2 lakh SHG and followed by upto 1 lakh cash credit to each of the SHGs through several banks to initiate any types of livelihood activities with the finance support to skill building to production to marketing its products.

The rural SHGs lack professional information about strand of the market and as producer and consumers they need access to market. GLPC is instrumental in guaranteeing to create ability to operate in local, national and export markets (regional and international). However, poor SHGs physical access to markets (distance between villages to urban markets) which increases cost of transaction and communication between producers and consumers. They are unaware of market related skills which are needed to survive in competitive markets. Furtherance to these SHGs are usually less informed about markets and its opportunities. In order to reach SHGs belong to in remote areas where digital and non-digital means of communication through radio, TV, Newspapers even the internet in order to increase their chances of identifying and undertaking profitable and sustainable livelihood.

These activities primly decided to eradicate poverty from cross the societies whether belong under privileged or privileged section of the societies with creating sustainable livelihood. GLPC experience has been reflected in the form of electronic media, articles, video clips and success stories but still GLPC exploring the ways and means to bring tail ended villages SHGs production into main stream of market through below cited activities:

- Execution of Village Haat & Gram Haat Schemes
- Support SHGs and artisans to participate at the local, National and International fairs
- Execution of the MoUs in between marketing vertical
- Implementation of Pilot projects

As part of its Endeavour, GLPC intends to appoint an agency for providing services of designing, fabrication, supply, installation, commissioning and testing of ContainerMangalam store and canteen at various locations in Gujarat with Exterior and Interiors including Comprehensive Annual Maintenance of the same for two years.

The broad objectives of the same are:

- At initial stage, GLPC is planning to set up 15 to 20 Store/Canteen at various locations.
- To strengthen the position of SHGs products through setting up Mangalam Store/Canteen at various locations in Gujarat.
- Position and Develop Brand GLPC through setting up Mangalam Store and Canteen Undertaken by Govt. of Gujarat and provide maximum exposure to store/canteen within State with a focus on right kind of messaging of empowerment and business development.
- To effectively disseminate information in the form of leaflet/brochure/promotional material of Mangalam Store/Canteen to be design and developed to all locations throughout the State of Gujarat.
- Mangalam Store/Canteen will be set up with the aim of empowering women and giving market to the goods produced by Self Help Groups.
- The GLPC, while working towards the challenging vision of empowerment of poor women, has to ensure realization of this vision through participatory means and by convergence of prevalent government developmental schemes. The mission of the company could be stated as: "GLPC strive to serve the underprivileged women as well as members of vulnerable communities/groups in the state by organizing and capacitating their Groups and creating sustainable livelihoods.
- GLPC ensure convergence of prevalent development programmes and schemes as well as forge partnerships with other non-government organizations and corporate houses for inclusive growth and the empowerment of the members of the groups served.
- In order to provide quality member-services, GLPC strive to remain financially sound and secure. We will work towards establishing ourselves as a unique organization with deep abiding human values and maintaining the same."
- Strengthening the position of the GLPC as one of the most important destination across the globe by increasing visibility and enhancing 'top of the mind' recall.

In order to help shaping up SHG's product and services at various locations through setting up Mangalam Store/Canteen within Gujarat, GLPC intends to engage an agency for setting up prefabricated

structure for the Mangalam Store/Canteen at designated locations within and outside Gujarat.

2.Scopeofwork

2.1 Mangalam Store and Canteen set up and operation by SHG(Self Help Group)

TECHNICAL SPECIFICATION		
Sr.No.	Points	Description
1.	Construction	The Container will be designed & developed with highest structural stability, water proof, weather proof, termite proof, fire resistant materials & capable of self-stability & withstanding adverse weather & storm conditions up to 170 KMPH, for the intended service.
2.	Size	10x20 ft
3.	Welding	All the frame members and load bearing members of the Container are in welded construction to equip the equipment's. The welding is to be carried out by Electrode flux coated road through Arc process / MIGprocessusingCO2as an argon shielding gas whichever applicable against material. All the external welding would be Continuous, uniform and of full penetration at every side.
4.	Temperature	The unit will be suitable for use with minimum & maximum ambient temperature of -20°C to 60°C.
5.	Unit Life	The design life of the unit is 10 years by doing part replacement and maintenance periodically.
6.	Container	The Container will be fabricated from tested quality steel duly welded, comprising of base frame, peripheral structure, self- draining roof and entry doors. The four inside corner will be design properly to maintain the stability of loaded container. The lifting corners will be sufficiently strengthened to lift the loaded container to shih and transport safely up to the destination. The lifting arrangement would be from 5mm MS steel plate to strengthen the lifting arrangement.
7.	Flooring	The base frame will be made of suitable Galvanized C Stud Section with RIB with flange to maintain the rigidity factor considering lifting, shifting and maintaining the stability of container for 10-yearlife. The roof structure will be as below: Outer periphery made of 1.6 mm thick Galvanized Ribbed

		125x40x8 Stud, 1.6 mm thick 100 x 40 x 8 mm 1.6mm thick stud with rib to be used at 600mm equal distance as intermediate support width wise. On the bottom frame 18 mm thick Cement fiber board fixed with self- screw to C stud section. Over 18mm cement fiber board 1.2 mm thick homogeneous PVC carpet will be glued.
8.	Roof Structure	On the bottom frame 18 mm thick Cement fiber board fixed with selfscrew to C stud section. Over 18mm cement fiber board 1.2 mm thick homogeneous PVC carpet will be glued. The base frame will be made of suitable Galvanized C Stud Section with RIB with flange to maintain the rigidity factor considering lifting, shifting and maintaining the stability of container for 25-year life. The roof structure will be as below: Outer periphery made of 1.6 mm thick Galvanized Ribbed 100x40x8 Stud, 1.6 mm thick 75 x 40 x 8 mm 1.6mm thick stud to be used at 600mm equal distance as intermediate support width wise. The roof shall be made of 1.6 mm thick Galvanized corrugated sheet with 20mm RIB with adequately roll formed reinforced roof sections of suitable thickness from inside for additional strength. For rain water two side slope this corrugated roof is to bend with special profile bending machine. The roof will be able to comfortably resist loads up to 20lbs/ Sq. The insulation in roof will be done with 70 mm thick rock wool of density 48 kg/m ³ .
9.	Wall	The insulated walls shall be made of Sandwich panels. The sandwich panels shall be made out of 0.5 mm thick Pre coated steel sheet at outer side and 0.5mm thick Bare G.I. Sheet at inner side of PUF (Polyurethane foam). The total thickness of panel shall be 35mm. The panels are join together by tongue and groove method.
10.	Entry Door and Window	For doors all gaps will be duly sealed at edges and seams to prevent ingress of rats, moisture etc. Main entry door: The size of the man door will be as per layout given. The door will be of internal or external opening type made out of 40 mm sandwich panel door both sides fixed with handle and. Door needs to be furnished. Window made of 5 mm toughen glass with Domel series heavy duty aluminum powder coated section as per approved design.
11.	Painting	All components will be primed suitable for galvanized material. The external oxide, surfaces will be initially Sandblasted then prime red with Epoxy primer. And finally, Fine quality decorative Epoxy paint will be applied in final stage. The total dry film thickness would not be less than 140 microns on the exterior surfaces.
12.	Lifting Type	provided by Container Manufacturer. Lifting arrangement will be from the top of the container.
13.	Lighting	230 V AC Necessary lighting arrangement to maintain 200lux level along with distribution DB, MCB's, Plug Sockets, cables in

		container will be provided. Provision for Foot light (for easy access at night), AC, Geysers, TV, and Refrigerator will be provided.
14.	Sanitation & Plumbing	To be provided by agency.
15.	Furniture	Design, material supply and setup will be provided by agency
16.	Legal registration & clearance	Will be done by agency, if necessary for any location
17.	Logistics	Agency has to supply structure at own cost (for various locations within Gujarat) Outside of Gujarat, logistics cost will be reimbursed based on actual payment made by agency
18.	Insurance	Structural insurance will be taken care by agency
19.	Tools & Equipments	Agency shall provide all necessary tools/equipments required to set up store and Canteen at various locations i.e. furniture, electrical supply, kitchen appliances to set up canteen etc.
20.	Other	Earthing point of container body will be suitable for easy connection

Canteen At Various Locations With Exterior And Interiors Including Operation And Comprehensive Annual Maintenance Of The Same For Two Years .

6. Dates for Bid Submission

S.No	Event	KeyDateandTime
1	Issue of EOI Document	10/10/2023
2	Pre-Bid Meeting	19/10/2023 at 3:00 pm Venue: Committee Room, Gujarat Livelihood Promotion Company Limited Block No. 18, 3rd Floor, Udyog Bhavan, Sector 11, Gandhinagar - 382011
3	Last date for sending Pre Bid Queries	16/10/2023 upto 4:00 pm through email only
4	Last Date for Online Submission of Technical and Financial Bid	3/11/2023 upto 3:00 pm
5	Last Date for Submission of Physical Copy of Technical Bid	3/11/2023 upto 3:00 pm at GLPC office, Gandhinagar
6	Opening of Technical Bid	3/11/2023 at 3.30 pm
7	Presentation by the Bidders	To be intimated to the Qualified Bidders
8	Opening of Financial Bids	To be intimated to the Qualified Bidders

7. Bid Evaluation and Award of Work

- The responsive bids shall be evaluated on a Quality and Cost Based Selection method (QCBS) as detailed in RFP. The responsive proposals shall be evaluated on a Quality cum Cost Based (QCBS) Basis in the ratio of 70:30 (70% weightage to Technical Presentation Proposal and 30% weightage to the Financial Proposal)
- The Authority will carry out evaluation of Technical Bids, based on Concept/technical presentation. Each pre-qualified bid shall be attributed a Technical Presentation Score. Marks out of 100 shall be awarded as per the Technical Presentation Evaluation.
- Bidders, provided they score more than 60% marks, shall be “Technically Eligible Bidder” and qualify for Financial Bid Evaluation. Financial Bid shall be submitted online only and it has to be submitted before due date and time of technical/financial bid submission. If either bid is not submitted as per requested by GLPC, it will lead to disqualification.
- After the evaluation of technical proposal is completed, the Authority may notify those Bidders whose Technical proposals were considered non-responsive and not qualifying as per RFP Terms of Reference, indicating that their Financial Proposals will not be opened.

- The Authority shall inform the Bidders who have qualified in the Technical Proposal after the evaluation of Technical Proposal before the date of financial bid opening.
- The Financial Proposals shall be opened from n-procure website in the presence of the Bidders authorized representatives who choose to attend. The name of the Bidders, the technical scores, and the quoted prices shall be read aloud and recorded when the Financial Proposals are opened.
- It is expected that Bidders shall determine the costs appropriately and shall take necessary care in allocating budgets adequately to major components of study.
- The price bid to be considered for evaluation shall exclude GST, but shall include all the other taxes, if any.
- The Evaluation Committee shall consider the evaluated financial offer and / or total proposal cost and the score on price quote will be calculated in the following manner.

$S_f = 100 \times F_m / F$ in which,

- ✓ S_f : is the 'Financial Score' of the Financial Proposal being evaluated.
- ✓ F_m is the computed lowest financial proposal (inclusive of all taxes but excluding GST).
- ✓ F is the Computed Price of the bidder under evaluation (inclusive of all taxes but excluding GST).
- ✓ T = the weight given to the Technical Proposal;
- ✓ P = the weight given to the Financial Proposal;
- ✓ S = Score
- ✓ Technical Scores (S_t)
 $S = S_t \times T + S_f \times P$

The weights given to the Technical and Financial Proposals are:

$T = 0.7$ (70%)

$P = 0.3$ (30%)

Proposals will be ranked according to their combined Technical Scores (S_t) and Financial Scores (S_f) using the weights indicated above. Final scores will be calculated as under:

The bidder getting Highest Score (technical plus financial) would be awarded the bid (the "H1 Bidder)

Agency will be selected on H1 basis. After selection of agency, Agency has to submit 3% Bank Guarantee of the final work amount. At initial stage, GLPC is planning to set up 15 to 20 Store/Canteen at various locations. For Mangalam Store and Canteen, technical specifications as well as design may vary in future based on initial

set up of few store/canteen or based on success criteria of running store/canteen project at various location. GLPC authority will decide and notify selected agency to make changes as per requirement in technical specifications as well as design of Mangalam Store/Canteen.

Agency may be selected for 2 years for the works of Engagement Of Firm/Agency/Contractor For Designing, Fabrication, Supply, Installation, Commissioning And Testing Of Mangalam Prefabricated Structures Store And Canteen At Various Locations In Gujarat With Exterior And Interiors Including Operation And Comprehensive Annual Maintenance Of The Same. An extension of 1 year may be given to the agency based on performance review of the work. Final decision will be made by GLPC authority after review of 2 years work done by agency.

8. Terms and Conditions(to be signed and attached with EOI)
